Resume Marketing Procedure

Resume Marketing Services Process :

At Canozoverseas, we follow a streamlined and result-driven approach to help you secure relevant job opportunities in leading multinational companies.

Stage 1 – Agreement & Onboarding:

After you complete the payment, we will send you an official agreement between you and the company, confirming your enrollment in our resume marketing services.

Stage 2 – Resume Optimization:

Your profile will be transferred to our Expert International Resume Optimization Team (RO Team). They will professionally rewrite and format your resume according to global standards and the specific job market of your preferred country.

Stage 3 – Placement Department Handover:

After optimization, your profile will move to the Placement Department. An alternate email will be created for job marketing purposes.

Note: Please do not change the password for this alternate email account, as both you and our team must have continued access.

Stage 4 – Dedicated Job Application Support:

A senior international process consultant will be assigned to your profile. They will apply to jobs on your behalf based on your skills, experience, and industry preference.

Stage 5 – Targeted Job Applications:

We apply for relevant openings in:

- MNC companies
- Verified third-party recruitment agencies
- Employers who have responded to our previous clients

This increases your chances of securing interviews, including telephonic, virtual (GMeet/Zoom), and in-person interviews. Job roles will be submitted based on your preference for senior, mid-level, or junior positions.

Daily Reporting & Follow-Up:

- All jobs applied for each day will be shared with you via an Excel sheet sent to your personal email ID.
- Two senior placement consultants will work on your profile daily to ensure faster results.
- We consistently follow up with employers for each submitted application to maximize response rates.
